## Known issues as of InDesign and InCopy Adapter for Platform 9.5.4

Following is a list of known issues in InDesign and InCopy Adapter for Quark Publishing Platform 9.5.4.

- When you attempt to check out an Article in InCopy that was assigned from an InDesign Digital Publishing Document/Web Document, InCopy crashes. (144934)
- If you upload a Digital Publishing Document containing hyperlink interactivity items and an alternative layout to App Studio, the interactivity items are not getting collected and therefore the interactivity is not being shown on an iPad. (153478)
- (*Windows only*): HTML page applied through open file interactivity is not playing correctly on an iPad if we upload the document from Windows. (Works fine if the same document is uploaded from Mac OS X). (155618)
- If you attempt to output a file that contains two different picture files with the same name, only one of the picture files will be downloaded and the same picture will be shown in the output in both places. (155380)
- If you check-out a document containing Platform Media assets and attempt to play the asset in a Media or SWF Preview panel, nothing happens because the assets are not being downloading during the check out. (155511)
- A “**CANNOT\_CREATE\_MULTIPLE\_PRIMARY\_ATTACHMENTS**” error is thrown when you attempt to attach an article that had previously been attached to, and then detached from, another document. (143626)
- After logging into InDesign or InCopy, opening a workspace browser and creating and checking in a copy of an InDesign Document or InCopy article, InDesign icons will be shown on all of the Platform dialogs. (142647)
- When attaching a Word file component, it will always be attached to a blank area, even when you are attempting to attach to a text box. (141411)

## Resolved issues: InDesign and InCopy Adapter for Platform 9.5.4

Following is a list of issues resolved in InDesign and InCopy Adapter for Platform 9.5.4. Note that the following is not an exhaustive list of all fixes in this version.

- **RESOLVED:** (*Windows only*): InDesign crashes on Quit. (162648)

## Resolved issues: InDesign and InCopy Adapter for Platform 9.5.3

Following is a list of issues resolved in InDesign and InCopy Adapter for Platform 9.5.3. Note that the following is not an exhaustive list of all fixes in this version.

- **RESOLVED:** (*Windows only*) If Platform Plugin’s for InDesign and InCopy are installed on a machine running a .NET Framework version other than 4.0, InDesign and InCopy will crash. (142530)

## Resolved issues: InDesign and InCopy Adapter for Platform 9.5.2

Following is a list of issues resolved in InDesign and InCopy Adapter for Platform 9.5.2. Note that the following is not an exhaustive list of all fixes in this version.

- **RESOLVED:** If you are logged in to the Platform Server through InDesign, you will be unable to detach an article component attached to an InDesign document using the QPP menu, the detach option is disabled in the QPP menu. (104366)  
*Workaround:* Select the article component to be detached in the **Workspace Browser** and detach it through the detach button in the **Workspace Browser** toolbar.
- **RESOLVED:** If you are logged into InDesign or InCopy and select either **Check Out Document/Article** or **View Revisions > For All Documents/Articles**, the dialog containing the results will display files besides the supported document types of .indd, .indt (InDesign) and .icma, icmt (InCopy). (140093)
- **RESOLVED:** (*Windows only*): When checking out a document in InDesign, the document is not being checkout out to the location defined in the preferences. (139224)
